ASX ANNOUNCEMENT

28 August 2020

Amended Straker Translations Limited Constitution 26 August 2020

Amendments to the Constitution of Straker Translations Limited (ASX: STG) were approved at Straker's Annual Meeting on 26 August 2020.

These amendments were necessary to maintain conformity with the updated ASX Listing Rules that came into effect from 1 December 2019.

The amended Constitution is attached to this announcement.

This announcement has been approved for release by the Board of Straker Translations Limited.

About Straker Translations

Based in New Zealand, Straker Translations has established itself as a world leading Ai data driven translation platform powering the global growth of businesses.

Straker Translations has developed a hybrid translation platform that utilises a combination of Ai, machine-learning and a crowd-sourced pool of freelance translators. The Company's cloud-based platform manages the end-to-end translation process, leveraging Ai, machine-learning (both inhouse and third party owned engines) to create a first draft translation and subsequently matching the customer's content with one or more of the approximately 13,000 crowd-sourced human freelance translators for refinement.

This process is managed using Straker's proprietary "RAY Translation Platform", which has been developed over eight years and is an enterprise grade, end-to-end, cloud-based platform. By leveraging machine translations and its big data assets, the RAY Translation Platform enables the delivery of faster and more accurate translations, lowering the time and cost to deliver versus traditional translation services. The platform can be integrated directly into customers' systems and

consists of a customer dashboard, machine translation integration and modules for assisting and managing translators.
